Provide income documentation

Discretionary Income: For Income-Based Repayment and Pay As You Earn, discretionary income is the difference between your annual income and 150% of the poverty guideline for your family size and state of residence.

For Income-Contingent Repayment, discretionary income is the difference between your annual income and 100% of the poverty guideline for your family size and state of residence.

For the SAVE Plan, your discretionary income is the difference between your adjusted gross income (AGI) and 225% of the poverty guideline.

The poverty guidelines are maintained by the U.S. Department of Health and Human Services and are available at aspe.hhs.gov/poverty-guidelines.
Income-Contingent Plan

Must apply online at studentaid.gov and update income and family size each year

- **Monthly payment lesser of:**
  - 20% of discretionary income, or

Saving on a Valuable Education (SAVE)
Must apply online at studentaid.gov and update income and family size each year

- Monthly payment generally 10% of discretionary income
- **Discretionary income**: difference between AGI and 225% of the poverty guideline
- **Timeframe**: 20 years if all loans for undergraduate; 25 years if any loans for graduate or professional
- Lowers payments for almost everyone because payments are based on a smaller portion of AGI
Interest Benefit: If you make full monthly payment, but it’s not enough to cover accrued interest, the government covers the rest of the accrued interest that month. This prevents your balance from growing due to unpaid interest.
The Saving on a Valuable Education (SAVE) Plan
Repayment Suggestions

/ If you borrowed $15,000 or less and have a job right out of college:
  ○ Standard Plan may be the best option

/ If you borrowed more than $15,000 and your income is low:
  ○ Graduated or Income-Driven plan may be the best option
  ○ NOTE: You will end up paying more in interest!

/ You can switch repayment plans!

It’s ok to pay more than the minimum amount due!
Delinquency & Default
Delinquency Vs. Default

**Delinquency:**
Your monthly payment is not received by the due date

**Default:**
When you become **270 days** delinquent in making payments

Not getting a bill does NOT mean you don’t have to pay!
Consequences of Default

- Entire unpaid amount becomes due and payable
- Account sent to collection agency
- Reported to credit bureaus - negatively impacts credit
- May be sued and forced to make payments, including collection fees and costs
- All or part of tax refund may be withheld
- Wages may be garnished
  - Employer required to send payments to Direct Loans as part of your salary
- Lose eligibility for federal student aid and loan deferment
Deferment

Temporary postponement of payment on a loan

Interest generally does NOT accrue on Direct Subsidized Loans. All other federal student loans that are deferred will continue to accrue interest.

Perkins Loans are with a different servicer - reach out to both when requesting deferment

Contact Loan Servicer(s) for questions and assistance!
Forbearance

/ Monthly loan payments are temporarily suspended or reduced
/ Interest continues to accrue on ALL loans
/ Unpaid interest will be added (capitalized) to the principal balance of your loan(s)

Contact Loan Servicer(s) for questions and assistance!
Loan Consolidation
Federal Loan Consolidation

Allows you to consolidate multiple federal loans into one loan.

You should NEVER pay to consolidate! It’s FREE!
Potential Benefits of Loan Consolidation

- **Interest Rate:** Fixed, weighted average (no cap)
- **One bill per month** (most have this anyway)
- **May have lower monthly payment due to increased time to repay** (up to 30 years)
Disadvantages of Loan Consolidation

- Possibly pay more in interest
- **Lose borrower benefits** (interest rate discounts, some loan cancellation benefits)
- Any outstanding interest becomes part of the principle balance
