DISABILITY RESOLUTION

**Student Section-**

- In order to receive Direct Stafford Loans after other federal educational loans have been discharged due to total and permanent disability I understand that I must provide a physician’s certification that my condition has improved and that I am able to engage in “substantial gainful activity” such as working or attending school.
- In addition, I must verify that any new loans received after the original discharge for permanent disability cannot be canceled in the future based on present impairment (unless my condition substantially deteriorates).
- If a student has received a Total and Permanent Disability discharge, the student must meet additional student eligibility criteria before receiving additional Title IV Loans or TEACH Grants. Please contact our office at 319-273-2700 if you have any questions.
- If a student has granted a Total and Permanent Disability discharge and it was granted on the basis of a physician’s certification or documentation from the Social Security Administration (NSLDS Loan Status Codes “DI” or “DS”), the student is subject to a post-discharge monitoring period that starts on the date that the Department granted the discharge. During this period, the receipt of a new Title IV loan or TEACH Grant or a subsequent disbursement of a Title IV loan or TEACH Grant that was initially received before the date that the Department granted the discharge may cause the student’s obligation to repay the Title IV loan or fulfil the TEACH Grant Service obligation to be reinstated.

**(Signatures MUST BE Handwritten)**

My signature below verifies my acceptance of these conditions.
