PARENT TAX FILING STATUS

Your parent's marital status reported on the FAFSA does not appear to agree with the parents' tax return filing status reported. Verify the parent marital status and tax filing status reported on the FAFSA at www.FAFSA.gov. If one of these items is incorrect, make a correction to the FAFSA. If the information reported is correct, make sure the income information reported correctly reflects the parent's 2022 income.

What is the marital status of your legal parents?

- If your parents are married or remarried mark "Married or remarried."
If your parents are separated or divorced, answer the questions about the parent who provided more financial support during the past 12 months or during the most recent year that you actually received support from a parent. If this parent is remarried, answer the questions about that parent and your stepparent.
Consistent with the Supreme Court decision on the Defense of Marriage Act (DOMA), same-sex couples must report their marital status as married if they were legally married in a state or other jurisdiction (foreign country) that permits same-sex marriage.
If your legal parents (biological and/or adoptive) are not married or are divorced from each other and live together, select "Unmarried and both parents living together" and provide information about both of them regardless of their gender.
If your parent was never married and does not live with your other legal parent, or is widowed answer the questions about that parent.
If your widowed parent is remarried, answer the questions about that parent and your stepparent.
